Kolkata, West Bengal

Career Objective

Computer Science undergraduate with a strong foundation in Java, JavaScript, Node.js, and full-stack web development. Passionate about building scalable software solutions and solving real-world problems through clean and efficient code. Seeking Software Developer opportunities to apply my technical skills, contribute to impactful projects, and grow as a software engineer.

Education

2023-2027	Brainware University, Kolkata Bachelor of Technology, Computer Science & Engineering	9.0/10
2023	12 th (Senior Secondary Examination) West Bengal Council of Higher Secondary Education (WBCHSE)	77.8%
2021	10 th (Secondary Examination) West Bengal Board of Secondary Education (WBBSE)	87.85%

Internships & Trainings

Jul'2025 – Sep'25	Hybrid Systems Intern, AgniRath Aerospace and Defence Research Pvt.Ltd, Kolkata - Contributed to the development of the JATAYU Hybrid Drone-Car Project (Joint Autonomous Terrain-Aerial Yawing Unit), a dual-mode mobility system integrating aerial and ground operations. - Designed and implemented an intuitive control interface for the hybrid navigation system. - Developed seamless transition controls enabling efficient switching between flight mode and terrestrial mode. - Coordinated with backend and embedded software teams to ensure smooth system integration and controller responsiveness. - Focused on usability optimization and real-time control feedback for improved operator experience.
Jan'26	Cyber Security Intern, Cisco Networking Academy, NIIT Foundation (Online Mode) - Completed structured training in cybersecurity fundamentals and secure networking practices. - Developed practical understanding of network defense mechanisms including encryption, firewall configuration, and intrusion prevention. - Performed vulnerability assessment exercises and applied basic threat mitigation strategies. - Gained exposure to securing enterprise-level network architectures through hands-on labs. - Successfully earned certification under the Cisco Networking Academy program.

Academic Projects

Aug'25-Dec'25	Library Management System (Java, Java Swing) (B. Tech Project, 5th Semester) - Developed a desktop application to automate library book and member management. - Implemented CRUD operations for books and members using Java Swing. - Applied Object-Oriented Programming principles to build a modular and maintainable application. - Packaged the project as an executable JAR using Apache Ant. GitHub
---------------	---

Jan'26-Jun'26	Smart Patient Health Monitoring System (Python, Scikit-learn, Pandas, NumPy, Matplotlib) (B. Tech Project, 6th Semester) • Developed a machine learning-based healthcare monitoring system to predict patient health conditions using vital health parameters. • Performed data preprocessing, feature engineering, and exploratory data analysis on healthcare datasets. • Trained and evaluated Logistic Regression, Decision Tree, SVM, and Random Forest models using accuracy, precision, recall, and F1-score. • Achieved 95% prediction accuracy using the Random Forest classifier. • <u>Colab Notebook</u>
Technical Skills	
Languages	Java, C, Python
Frontend	HTML, CSS, React.js, Tailwind CSS
Backend	Node.js, Express.js, EJS
Databases	SQL (MySQL), MongoDB
Tools	Git, GitHub, VS Code, Apache NetBeans, Postman
Deployment	Vercel, Render
Certifications	
	• Introduction to Cyber Security – Cisco Network Academy. • Introduction to Packet Tracer – Cisco Network Academy. • Cybersecurity Essentials - Cisco Network Academy. • Postman API Fundamentals Student Expert
Additional Information	
8-Feb'25 2026	• Completed multiple academic and full-stack development projects. • Participated in Design Thinking, Critical Thinking and Innovation Camp. • Registered on MY Bharat under the Viksit Bharat initiative.
